

Thank you for acquiring Visual Show Director !

Your Show Director license comes also with an active license for PyroCreator and Fx-Generator. You can export and import scripts from both applications.

For Visual Show Director:

You can download the New library Demo Project Folder from here:

www.infinityvisions.net/DEMOS/2019DEMOLIB.zip

Unzip it and put the folder "2019DEMOLIB" IN C:/SHOWDIRECTOR/
If you don't have this folder, create it. All the project links will work directly in that location.

Open the Project "2019 DEMO LIB.pyr" to visualize a selection of effects an you can use this project as a template to design new shows.

In the folder you have: SUPER LIBRARY 2019.lib

This is the new library. You can use it in your own projects.

SUPER EFFECT MANAGER 2019 x6.efx is the Effects Manager with 9140 effects.

PyroCreator 4D and FX Generator, the first drag and drop 3D pyrotechnic design software since 2006.

<http://www.infinityvisions.net/software/pyro-creator-fx-generator/>

Please read the users guide to familiarize your self with the features and use of the software.

Watch the video tutorials Playlists in our Youtube channel.

FxGenerator: [PLAY ALL](#)

PyroCreator: [PLAY ALL](#)

Download demo projects from <http://www.pyrocreator.com/downloads.htm>

Best way to Start: Try the new effects library with the demo project.

http://www.infinityvisions.net/downloads/2019DEMOLIB_PC4D.zip

Download and and put the .zip in C:\PyroCreatorDemos. (If you don't have it create that folder)

In PyroCreator File Menu select Import Zipped Project"

elect the .zip

The project will start loading.

Then, Save.

Learning PyroCreator takes just a few hours...

You can learn more with the [FX Generator Video Tutorials](#), and the [Users Guide](#)
