

Visual Show Director

Your Final 3D Solution !

NEW in 2020 !

*All Included in Only One Software Suite
One Year Subscription at \$449*

Your choice, **design with simulation or not.**

More tools, speed and flexibility than any other pyro design software. Visual Projects templates for easy simulation scripting. Non visual scripting works in any computer. Design in one single script to multiple firing and DMX systems. "Includes SD Tools".

Exports to all professional firing systems.

NEW ! RACKS AND SYSTEM NETWORK PLANS

NEW ! FIRING SYSTEMS SPECIFIC SCRIPTING LAYOUTS

NEW ! FAST VIDEO PRODUCER & 360 VIDEO and more...

Viewer and VSD Player VR

A windowless Viewer to use in a second monitor or VR Goggles with full runtime 3D stereoscopic immersion. Recording of 360 Video. Free *VSD 3D Player* to give the simulation to your customers and crew.

Fx Generator

Thousands of new realistic effects. Create or modify your own effects with total control and accuracy to make them unique and distinct. No limits in number of particles, your monitor resolution is the limit.

3D Position Editor

Includes preset projects of multiple standard layouts. Multiple sites and 3D models in one single project. Light beams and laser effects, objects animation. Walk through your site and place positions in VR.

PyroCreator

If you like drag and drop all in one single application this was the first software doing it. Cross compatible with Show Director. Ideal for simple shows or to review and edit Visual Show Director shows. Export script and edit with Excel and to all professional firing systems.

Show Director CONTROL

Control your DMX hardware directly from Show Director. A great solution to script, rehearse and also control the show. No need for complicated and expensive DMX boards. Uses ENTTEC interface.

PyroDesign Without Limits
